PART III — NARRATIVE

State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, 10-D, N-SAR, N-CEN, or the transition report or portion thereof, could not be filed within the prescribed time period.

Fluor Corporation (“Fluor” or the “Company”) has determined that it is unable to file its Quarterly Report on Form 10-Q for the fiscal quarter ended June 30, 2020 (the “Q2 Form 10-Q”) within the prescribed period without unreasonable effort or expense. As previously disclosed, the Company is reviewing its prior period reporting and related control environment, as well as completing its Form 10-K for the fiscal year ended December 31, 2019 (the “Form 10-K”) and its Form 10-Q for the fiscal quarter ended March 31, 2020 (the “Q1 Form 10-Q”), which were not filed by the prescribed due dates. A special committee of the Board of Directors is independently conducting the review, which is ongoing. Consequently, the Company has not yet filed its Form 10-K and Q1 Form 10-Q and does not anticipate being able to file the Q2 Form 10-Q until after the filing of the Form 10-K and Q1 Form 10-Q. While there are no assurances as to timing, the Company expects to file the Form 10-K before September 30, 2020.

(2) Have all other periodic reports required under Section 13 or 15(d) of the Securities Exchange Act of 1934 or Section 30 of the Investment Company Act of 1940 during the preceding 12 months or for such shorter period that the registrant was required to file such report(s) been filed? If answer is no, identify report(s).

- Form 10-K for the year ended December 31, 2019.
- Form 10-Q for the quarter ended March 31, 2020.

(3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?

- Yes
- No

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

For the second quarter of 2019, the Company originally reported a net loss attributable to Fluor of $555 million, or $3.96 per diluted share, reflecting pre-tax charges of $714 million as a result of an operational and strategic review of Fluor’s businesses, as well as project developments during the quarter. As noted above, the Company’s prior period reporting and related control environment are subject to the ongoing review of the special committee of the Board of Directors. In addition, until the Q1 Form 10-Q and the Q2 Form 10-Q are filed, the fiscal quarters ended March 31, 2020 and June 30, 2020 remain open. As a result, while the Company does not anticipate that the current fiscal year results will include project-related charges of the magnitude reflected in the Form 10-Q filed for the quarter ended June 30, 2019, the Company is not currently able to anticipate whether, following completion of the ongoing review with respect to its prior period reports and closing of the financial statements for the 2020 first and second quarters, there will be any significant change in results of operations from the corresponding period for the last fiscal year.

Cautionary Note Regarding Forward-Looking Statements

This Form 12b-25 contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, including, without limitation, Fluor’s expectations as to the filing of the Form 10-K, Q1 Form 10-Q and Q2 Form 10-Q, and the outcome of Fluor’s review of its financial statements.

These forward-looking statements involve risks and uncertainties, and actual results could vary materially from these forward-looking statements. Factors that may cause future results to differ materially from management’s current expectations include, among other things, the severity and duration of the COVID-19 pandemic and actions by governments, businesses and individuals in response to the pandemic, including the duration and severity of economic disruptions; the discovery of additional information relevant to the internal review; the conclusions of the special committee conducting the review (and the timing of the conclusions) concerning matters relating to the internal review; the timing of the review by, and the conclusions of, Fluor’s independent registered public accounting firm regarding the internal review and Fluor’s financial statements; the possibility that material errors may be identified; and the risk that the completion and filing of the Form 10-K, Q1 Form 10-Q and Q2 Form 10-Q will take longer than expected. Fluor disclaims any obligation to update information contained in these forward-looking statements whether as a result of new information, future events, or otherwise.
